**SUCCESS STORIES**

## KOOL CANGAROO

### INTRO

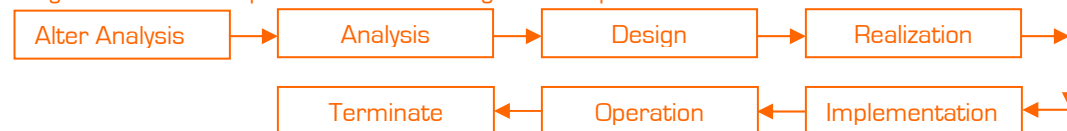

Kool Cangaroo Limited is a firm operating within the modern Information and Communication Technology field. We concentrate and provide professional Internet System Design business focused solutions to our clients 100% since establishment August 2004. Kool Cangaroo is a knowledge-based firm and our prime assets are creativity, knowledge, and expertise of our staff. Kool Cangaroo defines innovation as a strategic target. Our staff represents senior experience and know-how. The staff is all skilled technicians and designers with wide-ranging academic and industrial experience. Individual experience, both here in Uganda and abroad, we give attention to corporates and individuals by providing solutions to their Internet System Design problems. We are also down to earth with honesty and integrity. We will listen to you and promise not to blind you with **science and techno bubble...** instead; we will give you an honest take on what your Website and/or System need. Coming up with the best Internet System Design solutions and matching with the latest web technology to your business requirements. As a proactive firm, we will make you aware of opportunities to benefit and future proof your business. Through search engine marketing, on-going support, updates and statistics, we will ensure your website is an **on-going success story**.

### MISSION

To deliver business focused Internet System Design solutions

### OUR APPROACH

**First impressions count** on the World Wide Web, especially when visitors can so easily hit the "back" button. But with a Kool Cangaroo Design, the first reaction your website visitors will have is "wow". Then they'll easily navigate their way through your **user friendly website**, quickly locating the info they need. Your text will be readable and well structured, colours won't clash and your contact details will be obvious. In a nutshell, **your website will inspire confidence** and generate new business referrals. Internet System Design solutions are designed based on a specification containing client requirements.

## KOOL CANGAROO

### BUSINESS FOCUSED SOLUTIONS

#### All Internet Designs come with Website, Hosting, Domain, Email, Statistics and Blog.

Website: Design | Hosting: 25 GB | Domain: clientname.com/org/net/biz/info/mobi/name/me/at/in/eu  
Email: Unlimited web accounts | Statistics: daily – weekly – monthly – yearly

**Website** Our talented website designers build business focused web solutions that will streamline your operations and **achieve real results** for your company. Web development considerations are taken into at the planning stages of any project with detailed documentation and a clear picture of the end result. We know that every web design project must be well managed with on-going consultation between the web designer and client.

**Hosting** With our hosting, you get web space with your domain name permanently connected to the Internet along with unlimited number of Email addresses. With hosting at Kool Cangaroo, all employees, family members or club members can get their own, unique Email address. There are no limits as to the numbers of Email addresses/accounts that can be set up by Kool Cangaroo for you.

**Domain** Your professional domain name is attached to the hosting – web space. Your company, club, family or as an individual can have a home on the Internet which can be accessed by anyone in the world.

**Email** Where ever you are, all you need is a computer with Internet. Take your Inbox with you. You also have other features like calendar and address book. When it comes to security, we work continuously to make you do not receive viruses and spam in your inbox. We monitor and update the Email system 24/7 for you.

**Statistics** With statistics, you can find out how many visitors/hits your website has had during the last 24 hours, week, month and year or anytime up to now. Live statistics with graphs and colours for easy reading. You can also get to know, which sections of your website have been visited and what has been downloaded. With all this, you will be able to make fundamental management decisions on how your company's website needs to focus on.
